Our Expertise

FAST AND RESPONSIVE

With fast response times, which translate into increased efficiency, the solution is built on modern frameworks that reduce latency and increase overall system responsiveness.

ANALYTICS ENGINE

The built-in High-Performance Analytics Engine delivers quick results and reduces worktime. It crunches a massive amount of data to deliver complex reports and analytics instantly.

QUICK TO DEPLOY

Get up and running in literally no time. Designed to be configured and deployed quickly and securely, PE Front Office has one of the fastest deployment times among all such solutions.

EASY TO CUSTOMIZE

In addition to offering dedicated solutions for each market, our flexible framework allows for quick and inexpensive customizations, catering to tailored workflows and processes.

MULTI PLATFORM

Access the intuitive and easy-to-use web-based interface on Desktop, Tablet, or Mobile through the native apps on both Android and iOS. The system can be deployed either as a cloud-based hosted solution or locally on servers.

SEAMLESS INTEGRATION

Experience seamless solution integration with most third-party data information sources, allowing for data ingestion and export to other back office systems.
